Professional Summary

Full Stack Developer with hands-on experience building scalable web applications using React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, and PostgreSQL. Skilled in RESTful API development, JWT authentication, Role-Based Access Control (RBAC), Stripe integration, and real-time application development. Passionate about building secure, scalable, and user-focused solutions.

Skills

Technical: JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, SQLite, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC)

Tools: Git, GitHub, Postman, Prisma ORM, TypeORM, MongoDB Compass, Stripe, Socket.io, VS Code

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

Experience

Full Stack JavaScript Trainee → MERN Stack Developer Intern | Sep 2025 – Jun 2026

Excellence Delivered (ExD), Lahore

- Developed full-stack web applications using React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, and TypeScript.
- Built and integrated RESTful APIs, JWT authentication, and Role-Based Access Control (RBAC) systems.
- Contributed to ecommerce, team management, and grocery delivery platforms.
- Implemented real-time order tracking, live map integration, and AI-powered chat functionality.
- Collaborated with developers during development, testing, debugging, and code review processes.
- Worked with Git/GitHub for version control and team collaboration.
- Utilized AI-assisted development tools such as ChatGPT and GitHub Copilot to improve productivity.

Projects

Grocery Delivery Platform | Next.js, TypeScript, MongoDB, RESTful APIs

- Developed a full-stack grocery delivery application using Next.js, TypeScript, MongoDB, and RESTful APIs.
- Implemented real-time order tracking, live map integration, and delivery status updates.
- Built AI-powered chat support and role-based dashboards for customers, delivery personnel, and administrators.

RBAC Team Management System | Next.js, TypeScript, Prisma ORM, PostgreSQL

- Developed a full-stack team management application using Next.js, TypeScript, Prisma ORM, and PostgreSQL.
- Implemented JWT authentication, Role-Based Access Control (RBAC), and protected routes for Admin, Manager, User, and Guest roles.
- Designed RESTful APIs for user, role, team, and permission management with role-specific dashboards.

Full-Stack Ecommerce Platform | React.js, Node.js, Express.js, MongoDB

- Developed a full-stack ecommerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure authentication, RBAC, Stripe payment integration, and an admin dashboard for managing products, users, and orders.
- Built RESTful APIs, integrated Socket.io for real-time functionality, and developed AI-powered chatbot support.

Certifications

- IBM Full Stack JavaScript Developer Professional Certificate | Coursera | Nov 2025
- Generative AI: Prompt Engineering Basics (IBM) | Coursera | Apr 2026
- Google Foundations of Project Management | Coursera | Apr 2023
